

# CHARITY EVENT

## for *TOHOKU* region in Japan

Thank you very much for coming to today's event and giving your support to the people affected by the earthquake in Japan. The massive 9.0-magnitude quake and the tsunami on 11 March 2011 are now known to have killed more than 11,000 people, with at least 16,500 people still missing across north-eastern Japan. IIEL will donate all the profits from today's event to the Japanese Red Cross Society for those affected by the Tohoku earthquake and tsunami. A donation point is also situated at the main reception desk where you got this programme.

### Workshop

You can book and buy your tickets at the tickets point (see the map on the reverse side), situated in the middle of the event room (Old library).
